For all mandatory data necessary to ensure an automated incoming invoice processing at BMW, Seller has to use data provided on the Supplier Information Platform available at:

Depending on the nature of different business cases, the invoices need to be issued separately (e.g. for direct material, investment goods, services...). Furthermore, for claims and for revaluation separate documents need to be created. Credit notes for claims need to include the material share as well as the additional costs – the necessary information is shown in the Supplier Information Platform within the B2B portal. The number of invoice line items is limited to a maximum defined in the Supplier Information Platform.

Additionally, all invoices issued by Seller under these Terms and Conditions shall comply with all applicable tax requirements under the laws of Mexico.

Invoices which fail to meet the requirements of this provision may be rejected by Buyer. Seller will be notified and costs arising therefrom will be passed on to Seller. In that event the term allowed for payment shall begin on the day of receipt of the new, due and proper invoice, which meets the requirements of this provision.

C.

Section 7.4 IPC shall not apply.

D.**New section 7.12** IPC

If withholding tax falls due on the amounts to be paid by Buyer to Seller, the withholding tax shall be withheld by Buyer in accordance with the applicable law and regulations in effect and paid to the relevant tax authority for Seller's account.

Upon request of Seller and in compliance with applicable law and regulations, Buyer shall provide Seller with a valid tax certificate or tax official document evidencing payment of withholding taxes on behalf of Seller.

If an applicable double taxation treaty or another regulation or law provides for a reduction or exemption from withholding tax deduction, Buyer shall only withhold the reduced amount or apply the exemption if Seller has provided Buyer with a valid tax exemption certificate at least 20 banking days before the payment date. Otherwise Buyer shall deduct and withhold the withholding taxes from the amounts due, which must be paid to the relevant tax authority to comply with the tax laws and regulations applicable and in effect. Seller shall meet all its certification, information and documentation obligations and other duties required for the application of reduced tax rates or exemptions under the applicable double taxation as well as the applicable laws and regulations.

E.

Section 11.8 IPC shall be supplemented as follows:

Buyer may only claim liquidated damages pursuant to Sec. 11.8 if the unlawful restraint of competition has been established by a final decision of a competent authority or court. For the purposes of possible actions for damages (irrespective of their legal grounds) Seller shall be bound by that decision.

F.**New section 11.9** IPC:

Seller and Buyer are independent contracting parties and nothing in the purchase order or in this terms and conditions will make either party the employee, agent or legal representative of the other for any purpose. The purchase order and/or the terms and conditions do not grant either party any authority to assume or to create any obligation on behalf of or in the name of the other. Seller will be solely responsible for all employment and income taxes, insurance premiums, charges, liabilities and other expenses it incurs in connection with its performance of the purchase order and/or terms and conditions, except as expressly provided in a written agreement signed by Buyer. All employees and agents of Seller or its respective contractors are employees or agents solely of Seller or Seller's contractors, and not of Buyer, and are not entitled to employee benefits or other rights accorded to Buyer's employees. Buyer is not responsible for any obligation with respect to employees or agents of Seller or its contractors and therefore Seller agrees to hold Buyer, its shareholders/partners, affiliates, directors, managers, officers, employees and advisors, free and harmless from any law suits or claims filed against Buyer in connection with compliance of such obligations of Seller.

G.

Section 17 shall be supplemented as follows:

Pursuant to Articles 66, 67 of the Federal Mexican „Ley de Caminos y Puentes“, BMW has to notify to its freight forwarders the value of the cargo of each and any given shipment in order to ensure the freight forwarder’s liability for loss and damage to the cargo. The Supplier agrees to such notification and is aware that thus the prices agreed between BMW and the Supplier under this contract/agreement will be disclosed to the freight forwarder. BMW represents that its freight forwarder is obliged to confidentiality.

H.

New section 18.4 IPC:

All insurance policies that Seller shall obtain under this Terms and Conditions, shall be obtained with an insurance company duly authorized to operate in Mexico. Buyer may, at its discretion, accept insurance policies issued by companies authorized to operate in the United States of America or other countries.

I.

Section 22.2 IPC shall be replaced by the following:

The parties agree that the courts sitting in Mexico City, Mexico shall have exclusive jurisdiction for any action or proceedings commenced under any supply contract/purchase order (including these Terms and Conditions). This choice of forum agreement does not apply to claims pursuant to Sec. 11.8 IPC nor to any other contractual or statutory cartel damage claims.
